Author of *Healthcare Beyond Reform: Doing It Right For Half The Cost*

*“It amazes me that people still know so little about the real, radical answers developing in health care right now — and what they can do about them.”*

Healthcare futurist **Joe Flower** goes public with the biggest secret in health care: The real solution is already showing up — if you know where to look.

Flower shows:

- How to make the federal deficit disappear.
- Why half of all health-care costs are spent on 5 percent of the people.
- Why cost-cutting doesn't cut costs.
- How we can solve our health-care crisis without rationing.
- Nine things doctors could stop doing today — that we'd never miss that would save enough to cover all uninsured Americans.
