# William E. Donoghue

“Proactive Fund Investing Guru”

---

*Proactive Fund Investing Advocate Manager*

Today's volatile markets demonstrate that traditional “Buy and Hold” strategies alone are unlikely to be effective. Donoghue's proactive investing strategies seek to earn high-return, low-risk returns by avoiding known risks and diversifying to reduce unknown risks.

A mutual fund expert for 43 years, an asset manager for 20 years and a proactive sector fund and ETF portfolio manager for 10 years, Donoghue offers innovative portfolios, using Sector Rotation, Long/Short Investing, Power Income and Tactical Growth strategies in taxable, potentially tax-free and tax-deferred accounts.
