

## Why our future is so frightening?

### *The Sunni Taliban and the Prophet Mohammad*

The world is dealing with the 7<sup>th</sup>-century mentality in the 21<sup>st</sup> century. The Islamic Republic of Iran is actively supporting the Taliban. Taliban leaders have dual citizenship. They each have an opulent home in Tehran and other cities courtesy of the Arab mullahs' government where Taliban families live safely.

The word *Sunni* comes from the Arabic word Sunnah meaning the behavior of Prophet Mohammad, or, walking in the pass of Prophet Mohammad.

Unfortunately, tradition tells us, the pass of Mohammad is a pass of inexpressible destruction, inhumane slaughter, rape, plunder, and void of logic.

There is a historical basis for today's the Taliban's behavior.

According to Arab historians, Ayesha, the daughter of Mohammad's companion Abu Bakr, was only six-year-old when Mohammad first saw her. Mohammad insisted on taking Ayesha home the very same day as his object of sexual interest. However, he waited until Ayesha was eight years old.

It was a common practice to steal, take by force a female child, and have sex with her since there weren't any marriages in Islam during the days of Mohammad and beyond. The Taliban today uphold that practice.

Today, August 2021, it is within the power of any Taliban to go door-to-door in all conquered cities in Afghanistan, demanding the families to write down the names of their female members from the age of nine to twenty-six and affix them to their doors.

Taliban site the tradition pleases Mohammad even though there is no historical foundation for this.

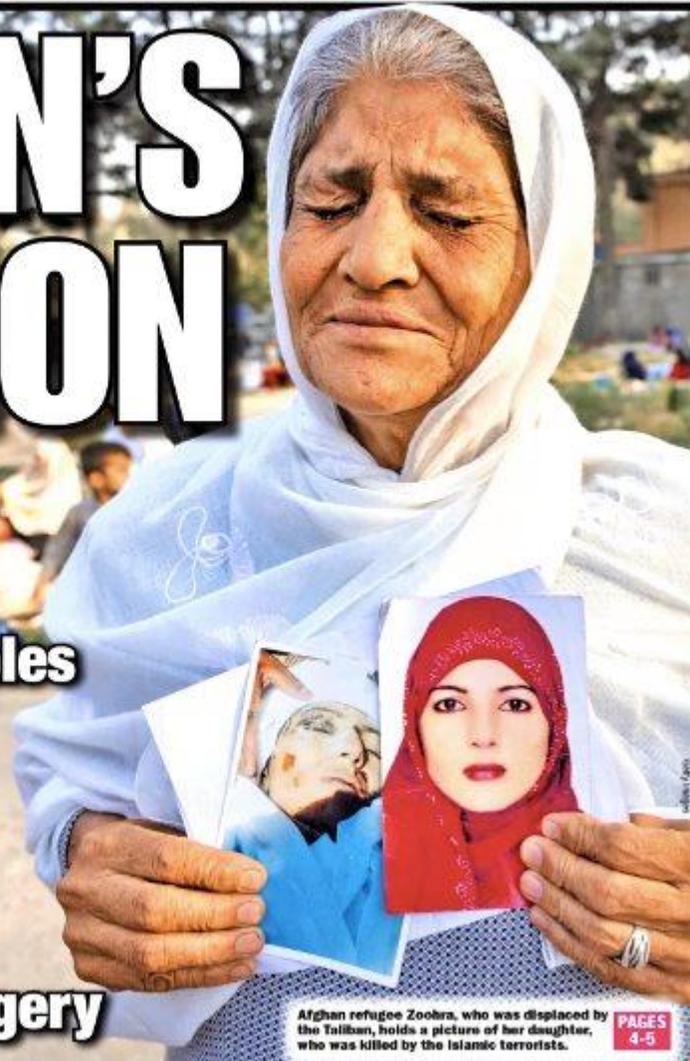

According to a statement by Secretary Hillary Clinton, the United States funded the Taliban and Al Qaida to stop Russian aggression in Afghanistan in the 1980s.
