**FOR IMMEDIATE RELEASE:**

## **EX NIHILO CELEBRATES CREATIVE INNOVATION**

Washington, DC (March 18, 2023): Ex Nihilo Management, LLC, a consultancy specializing in technology governance, cybersecurity, management consulting and training, is proud to announce the launch of its first annual Employee Global Recycling Day Contest.

In 2022, Ex Nihilo launched its green initiative and commitment to sustainability. We asked our customers and suppliers to tell us which initiatives were most important. Recycling is an integral part of the climate change cycle and helps in promoting and protecting global sustainability.

“Recycling is just one of many commitments we have made in a much bigger effort in the fight against climate change. There are several ways to recycle that allow some materials to be reused multiple times. Recycling is great for all living creatures as well as the environment because it lessens the energy we use; enhances the quality of water and the air we breathe.” Dingle went on to say.

While Global Recycling Day is celebrated on March 18<sup>th</sup> every year, we are committed to making everyday efforts to prioritize sustainability and playing our part in helping not only our community, but the environment as well. This year’s theme is ‘Creative Innovation’.

That's why we are proud to announce our first Annual Global Recycling Day Contest! This year’s theme is “Creative Innovation.” We are encouraging our employees to contribute to Ex Nihilo's sustainability efforts by participating. Whether it’s recycling, upcycling, enlightening others on recycling or showing gratitude through social media to those that have already made recycling a part of their everyday lives, we know that everyone can help us make a difference. We believe this furthers our efforts and commitments to focus on actions that are in line with protecting the environment in the fight against climate change.

We are excited to host our second annual Earth Hour Watch Party on March 25, 2023. Join us in creating the biggest hour for earth by switching off your lights and spending 60 minutes doing something positive for our planet! To register, visit:
