This gift, of an up and coming token is remarkable. It is used as an educational tool to help parents teach their children about the future of crypto. DGRCoin.com started in May of last year at 6 cents per token, it is now trading at 22 cents per token. All who attend on August 30th will receive free DGR coins.

Maestro is a group of executives and professionals brought together by David Rohlander in 2013 to help promote and discuss his book, The CEO Code. The groups purpose is to help executives create a masterpiece personally and professionally. Their Motto is Desire + Goals = Results. During Maestro discussions there was great concern over the dysfunctions in Washington DC and the threat of inflation to destroy people's wealth. To combat this threat the group decided to create a crypto coin, later named DGRCoin.com.
