About Charles Simon, BSEE, MSCS, Founder and CEO of FutureAI.guru (https://FutureAI.guru). Mr. Simon Is a nationally-recognized computer software/hardware expert and AI neural network pioneer. Also, he is a successful author and speaker. His combined development experience in CPUs, neurological test equipment and artificial intelligence software makes him a fascinating and entertaining expert. Previous publications include a book on Computer Aided Design, and numerous technical articles and book contributions with write-ups in Newsweek and other media interviews.

> *[Simon's] appealing blend of philosophy and hard science from a thoughtful writer with a knack for bringing the esoteric down to earth will be a treat.*
>
> —**Publishers Weekly**

The FutureAI YouTube Channel has 30+ videos on how your brain works and the creation of Artificial General Intelligence including information on the forthcoming "Brain Simulator II" software and book, *How to Create AGI*.
